

# Crawling

Sacred Reich

You say you're misunderstood  
I say you give it real good  
Now you work your way back  
You're crawling

You say you've always been there  
I say I don't understand  
You say you're back for good  
You're crawling

But your time now is gone  
You try to hang on  
Try to stay on your feet  
But now you're crawling, crawling  
To me  
Crawling, crawling  
Crawling, crawling  
Back to me  
Crawling, crawling

Is this what you want  
Take it right back to the start  
When you fall on your face  
You're crawling

Try it all on your own  
Give it all that you know  
But when you come up short  
You're crawling

But your time now is gone  
You try to hang on  
Try to stay on your feet  
But now you're crawling, crawling  
To me  
Crawling, crawling  
Crawling, crawling  
Back to me  
Crawling, crawling

Now you want all of my time  
I see what you are like  
Enter into my life  
Crawling

You know no words to say  
You always like to play  
When on your hands and knees  
You're crawling

But your time now is gone  
You try to hang on  
Try to stay on your feet  
But now you're crawling, crawling  
To me  
Crawling, crawling  
Crawling, crawling

Back to me  
Crawling, crawling
