

Fallen Hero

Sacred Warrior

The artist and the warrior
Fighting battles for the Lord
Writing melodies
To calm the aching soul

Once a sword fierce in hand
All the victories but one
Shattered visions
Lust and murder stole your heart
Away
Fallen hero
In a bed of sorrow now you lie
Your head in shame

Through the eyes of a compromise
You entertained the thoughts too long
Overwhelmed by a rush of blood
Captivated you stalked her love

Once a sword fierce in hand
All the victories but one
Shattered visions
Lust and murder stole your heart
Away
Fallen hero
In a bed of sorrow now you lie
Your head in shame

(Crying out for mercy
Regret plagues your every day
Thank God for forgiveness
And a brand new day)
