

# Atrocity

## Sacrifice

I have been reborn under  
The fallen light  
Attack the blameless, violence  
Ignite

In pools of timid blood  
Darkened skies will rain

This cause becomes a cancer  
Spreading a violent plague  
Like a locust swarm,  
no life will remain

In pools of timid blood  
Darkened skies will rain

Darkness envelope me,  
to make my conscience fail  
Commit indignities  
to the weak and frail

In pools of timid blood  
I begin my reign  
Darkened skies will rain  
No life will remain  
Atrocity insane
