

Love Is a Bitch

Sad Harmony

Softly stroke your breast
I'm weeping crying, thoughts of denying.
For the last time get by me!
Shall i ever see the darkest side
My friend, it's the time
My vanity, it's oh deep

I cursed you one hundred times
Cause i was made to fly
But you were made to die
Moan road with every new experience around me

Faith is going nowhere
Can't live without trust in mind
God damned misery
Do i live in my dream
If you ever join me there
Can't believe in what i never see

Don't make me hate
I don't know if i can stand it
I've lost in all the things we do
Maybe i want more than i am
(: hold me down :)
I'm feeling all my chances drown

... so let's celebrate our lifes
I know i went wrong many times
Nothing's never ending
I can't miss the point
