

## Tetragonal Pill

Sad Harmony

Hasted days  
We just fly  
Burning trees scattered all along the way  
Shall we sleep, shall i sleep  
When every dream seems o.k  
Ain't it sweet  
As years go by  
Longing for connection, don't you keep me away  
Burning leaves and i leave  
So stop the game that you play  
I'll abandon my sorrow  
If you will come to me tommorow  
Morning shines  
Golden round  
Holy light removed curtains of the night  
Let me see that all can better be  
And all is bright today  
Strange cloud flows  
On the sky  
An emmet lost its way  
Where on grass methought i lay  
Wasting time corresponding to crime  
How much we have to pay?  
I'll abandon...  
Forgive me this stolen day  
Hold me tight get me away  
From my mind
