I Would Never Have Guessed

Sade

I know that the damage is already done
There's no going back
I would never have guessed
We'd come to this

I know that it hurts
To turn you away
But I know
All that I was wrong
You're raging inside
and then being denied
waiting too long
for the feeling to die

Is something this broken
Ever gonna fix?

If you ask me this question
I would never have guessed

I know that it hurts
To turn you away
But I know
All that I was wrong
You're raging inside
And then being denied
Waited too long for the feeling to die
Is something this broken ever gonna fix?

If you ask me this question
I would never have guessed
