

Out Of My Body

Sadie Jean

Not really sure where I've been
Maybe it happened again
Fall into you when it gets a little too loud

I'd trade all my problems for you
A distraction I'm latchin' on to
And it's not the wise thing to do
But it's a little late now

Somebody stop me
I'm floatin' outside of my body
I know it'll cost me
I'm runnin', but how could I not be?

You're a blue sky
And why would I fight when I could fly?
I know it's not right, but it feels nice
To fall into you 'til I've lost me
It feels like I'm out of my body

I write the bad days in pen
'Cause I know I'd rather forget
Somethin' about permanence
That I have to face

And it's brutal when you go away
There's nothin' to fill all the space
Come back at the end of your day
And be my escape

Somebody stop me
I'm floatin' outside of my body
I know it'll cost me
I'm runnin', but how could I not be?

You're a blue sky
And why would I fight when I could fly?
I know it's not right, but it feels nice
To fall into you 'til I've lost me
It feels like I'm out of my body

Out of my, out of my, out of my body
How do I, how do I, how do I stop me?

You're a blue sky
And why would I fight when I could fly?
I know it's not right, but it feels nice
To fall into you 'til I've lost me
It feels like I'm out of my body

Out of my, out of my, out of my body
How do I, how do I, how do I stop me?
