

Genital Mask

Sadist

Who stands before me?
What are you? Sex mask that confuses my brain
Maybe a female genital, maybe a male genital
Prominent, like the top of the highest mountain
Hidden, like the rabbit in the bushes

You are female, disguised as a severed head family
Scent of a woman, a mistress
Stirred into the den of desire
Smell matriarch, is at your command?

Heavy female disguise, driving the herd to survive

Today they said they'll stay alive
Sacrifice of a lamb alive and scared
Excited by the taste of blood

Heavy female disguise, driving the herd to survive
