

Flu Sick

Sadistik

A permit to carry is easy in Cali
Used to take the Rottie off the leash when we'd creep through the alleys
Went from east side to deep in The Valley
I got scars on my arms I'm keeping the tally

When I dumb out like MJ with the tongue out, this flu sick
Open up my moonroof this landscape is moonlit
Translate my new script fans say I'm Kubrick
Can spray like Ubik
Who finna get boomed in a pinch, shoot for the ribs, loot from the rich
DOOM with the clips, gloom in the bliss, bloomed in abysses
Snakes in the grass hiss... Breaks in the glass
Rake through the ash pits lost my faith in a black mist
Watch my hate get in fashion, acid ate til I had spins
Then had a bad hit add a cap in
Fabricate it with the past sins I am acclimated to madness
I assassinated my sadness I decapitated my last friends

Nuts on your forehead I just bought a warhead
I wanna see more red on tabletops in your bed
Drag a motherfucker across the room until the floor red
Pistol in my Regal is illegal like a torrent
Played your fucking album for the homies and we start snoring
Wreck a motherfucker just like Ralph while wearing Lauren
He's a tiger, he's a lion but I'll take a shit in your den
Right up in your ass is a size 12 Jordan
I'll open up a whole fucking can
Don't make slide the door on my broke cousin van
Walk inside the record label, we then cuss at them
Security remove this man if he cuss again
But they let me beat your ass cuz I'm buying lunch for them
