

# God Complex

Sadistik

(Coughing)

Yeah

Get on my level for real, get on my level

Get on my level for real, get on my level

Yeah

The apparitions appear, they're up here

My conditions impaired

Now our positions to peer on our peers

My visions in pairs

Apparently people still think I'm a poet

A freak and I know it

Afraid I'm a fraud, I'm a leech, I'm a rodent

Taking the hearts of the people opposed

Feast or be feasted, it's beating for beats & I know

I'm a beast and it shows, I'ma show 'em my teeth

At least that I know I'm the least

These people are so in between more like social disease

So fuck their retweets & fuck the like

I've come to defeat and cut the ties

I don't vie for dumb, I become divine

Will I sacrifice my sun to shine?

Watch him revel in this shit, watch him revel in this shit

(Devil on the left)

Watch him revel in this shit, watch him revel in this shit

(Devil on the right)

Watch him revel in this shit, watch him revel in this shit

(Devil on the left)

Watch him revel in this shit, watch him revel in this shit

Which level did you get?

I got a God up here, I got a God up here

What you got up here?

I got a God up here, I got a God up here

What you got?

I got a God up here, I got a God up here

What you got up here?

I got a God up here, I got a God up here

Which you got?

I'm the god of gods

All are lost, Holocausts

All accosted for hollow cause

Throw molotovs, don't call the cops

We're slowly dying and waterlogged

Don't baptize me in alcohol

Or choke and tie me, I'm nodding off

Throw tomahawks at those bla bla-blas

Like wooh, yeah I don't wanna talk to you

Like wooh, and I don't want a talking to

Since I can't fit sins in stanzas

I'll sit in absence and sip the absinthe

My hippocampus can hit the canvases

Is this disenchantment ?

Watch him revel in this shit, watch him revel in this shit

Watch him revel in this shit, watch him revel in this shit
