

The Devil In Me

Sadus

The light it burns the purity
And darkness is all I see
The heat inside makes me high
Uplift me now, intensify
A monster, a fiend, a savage beast
Awake the night and come alive

Come alive

To sin again, to violate
The pleasure's gone and now I take
Strong, mean, leading extreme
A superior being is living in me
I crave the bad Diablo wraith
The dark is here, my friend appears

My friend appears

I am alive
I am alive
I am alive
I am the night

It's the devil
It's the devil in me

I am alive
Awakened alive
I am alive
I am the night

Angry, corrupt, obscene
Wicked, extreme and mean
Angry, corrupt, obscene
Wicked, extreme and mean

Evil ways invade my mind
Pushing their way through
Every thought is ruthless
There's nothing I can do
Overwhelming wake of blood
My wicked rage is back
Everything is bad inside
And awaiting to attack
The horrible has come to life
No secret that is true
I walk alone with evil
And it's burning its way through
Everything is bad inside
No escaping from within
A devil that has come to life
I can't stop it
'Til it wins

I am the night

It's the devil

Devil in me
It's the devil
It's the devil
Devil in me
Devil in me
Devil
