Float

SAFIA

Think that I would get it by now
Sailing on my sins, I'm sorry
Sing a little hymn, don't worry
Worry

Think I wanna set it all out
Dancing with the whims I ponder
With every single step they wander
Wander

And that's how it goes
Always building up to come undone

On dry land though my heart's in a river
Think I'll pick it up
Oh I wish that I could let it float
I wish that I could let it float

Think I wanna let me guard down
A feeling in my chest like thunder
Swimming through the depths I'm under
Under

But when I start dancing I fall out of rhythm
The moves get hard so I guess I'm forgiven
But I won't stop cos' I think I can work it out

On dry land though my heart's in a river
Think I'll pick it up
Oh I wish that I could let it float
I wish that I could let it float

On dry land though my heart's in a river
Think I'll pick it up
Oh I wish that I could let it float
I wish that I could let it float

On dry land though my heart's in a river (river)
Think I'll pick it up
Oh I wish that I could let it float
I wish that I could let it float

On dry land though my heart's in a river
Think I'll pick it up
Oh I wish that I could let it float
I wish that I could let it float

Think that I would get it by now
Sailing on my sins, I'm sorry
Sing a little hymn, don't worry
Worry
