

No Reason

SAFIA

We go all the way
All the way 'round the Sun
Any way that I could get up
Next to you, ooh-hoo-hoo
We go all the way
All the way around the Sun
Any day now, I should get up
Less confused, ooh-hoo-hoo
We go all the way
All the way around the Sun
Every second, I should use it
Precious few

But you don't need no reason
You don't need no reason
Any way that's right for you
You don't need no reason

We go all the way
And all the way around the Sun
Any way that I could get up
Next to you, ooh-oh-oh-oh-oh-oh-oh-oh
We go all the way
All the way around the Sun
Any day now, I should get up
Less confused, ooh-hoo-hoo

But you don't need no reason
You don't need no reason
Any way that's right for you
You don't need no reason
But you don't need no reason (reason, reason)
You don't need no reason (reason, reason)
Any way that's right for you, ah
You don't need no reason
You don't need no

You don't need no reason
You don't need no reason
Any way that's right for you
You don't need no reason
You don't need no reason
You don't need no reason
You don't need no reason
