

Starlight

SAFIA

Hands on my window
And I think I'm calling back
I think I'm calling back
You are my story
You're a story to relax
A story to relax
All that I needed
And I needed just a friend
And I needed just a friend
You are my fore-wind
But I leave alone again
But I leave alone again

Let's all dance in the starlight
We don't need to fall right back
We're just scared of the alright
Fall in like a starlight yeah

Give a little up my friend
Maybe we were never right back then
Baby give it up
Are you giving up? Yeah
Never wanna bet right now
You start leaving when I think aloud
Baby give it up
Are you giving up?

All in a reason
When it's all inside my
When I'm all inside my head
Caught in a feeling
But I'm closer to the edge
But I'm closer to the edge

Let's all dance in the starlight
We don't need to fall right back
We're just scared of the alright
Fall in like a starlight yeah

Give a little up my friend
Maybe we were never right back then
Baby give it up
Are you giving up? Yeah
Never wanna bet right now
You start leaving when I think aloud
Baby give it up
Are you giving up?

All that I needed
And I needed just a friend
And I needed just a friend
You are my fore-wind
But I leave alone again
But I leave alone again

Give a little up my friend
Maybe we were never right back then

Baby give it up
Are you giving up? Yeah
Never wanna bet right now
You start leaving when I think aloud
Baby give it up
Are you giving up?

Give a little up my friend
(Let's all dance in the starlight)
Maybe we were never right back then
(We don't need to fall right back)
Baby give it up
Are you giving up? Yeah
(We're just scared of the alright)
Never wanna bet right now
You start leaving when I think aloud
(Fall in like a starlight)
Baby give it up
Are you giving up?
