

# Think We're Not Alone

SAFIA

I'm not alone  
I'm never free, oh  
On every road  
They follow me

But wherever you live  
And wherever you are  
They follow you home  
They're having a laugh  
Whatever you give  
No matter how hard  
Yeah no matter how hard

Oh I think they're listening  
I tip toe toward the light  
I can't keep resisting  
The creatures in the night  
I think we're not alone  
I think we're not alone

(I think we're not alone  
I think we're not alone)

And all around  
Waiting for me, oh  
I'm breathing out  
Uncertainty, yeah

Whenever you feel  
And whenever you don't  
They know when you will  
And they know when you won't  
So I'm never alarmed  
Though I want you to know  
Yeah I want you to know

Oh I think they're listening  
I tiptoe toward the light  
I can't keep resisting  
The creatures in the night  
I think we're not alone  
I think we're not alone

(I think we're not alone  
I think we're not alone  
I think we're not alone  
I think we're not alone)

Oh I think they're listening  
I tiptoe toward the light  
I can't keep resisting  
The creatures in the night  
I think we're not alone  
I think we're not alone

Oh I think they're listening  
I tiptoe toward the light

I can't keep resisting  
The creatures in the night  
I think we're not alone  
I think we're not alone

(I think we're not alone  
I think we're not alone)
