

Spin it Again

Saga

Even a simple man with
Simple expectations
Can be made to understand
There's an easy way to
Rise above one's station
'n all it takes is one strong hand
Spin it again
Take a little from the middle
Let it ride on the inside and spin it again
One more time
Spin it again
You can win it if you're in it
Make a play for the outside and spin it again
Hold on tight
Somethin' tells me that for you
It's all or nothing
And in the past you've felt the sting
Well nothing ventured
Nothing gained's what I say
So throw your hat into the ring
Sometimes it's just the roll of the dice
That separates the real men from the boys
And sometimes you won't have to think twice
'Cos it's time to make some big big noise
Spin it again
Take a little from the middle
Met it ride on the inside and spin it again
One more time
Spin it again
You can win it if you're in it
Make a play for the outside and spin it again
Hold on tight
They tell you that a shortcut
Is the longest way around
But I believe you gotta take a chance
If it's the only game in town
'Cos it's time to make some big big noise...
Spin it again
Take a little from the middle
Let it ride on the inside and spin it again
One more time
Spin it again
You can win it if you're in it
Make a play for the outside and spin it again
Hold on tight
Spin it again
Take a little from the middle
Let it ride on the inside and spin it again
One more time
Spin it again
You can win if you're in it
Make a play for the outside and spin it again
