

Litutation

Sage the Gemini

If this gon' be your first time
It should be with me, it should be with me
One time for the one time
Yeah, we gon' see, yeah, we gon' see
You should let me take control of the situation
Girl, I bet tonight is gonna be a litutation

You too fine to only wanna love me
You too fine to only wanna touch me
You'll be saying please don't put no one above me
You already here still yelling that I'm coming
You got a man, but still want me on the d-low
That's not what I do, not really my steelo
If the tables turn, you'll be smoking like a steamboat
Screaming, "Fuck you" like Cee-Lo
I am not lie, you the baddest thing
Red bottles click the floor like [?]

You should let me take control of the situation
