

Bittersweet Melody

Said The Sky

There's a lock on your door
A lock on your heart
The more you keep me out
The more I fall apart
See I'm just trying to reach you
And it's getting on my nerves
The more I think about you
The more it hurts

I'm trying I'm trying I'm trying to let you go
But words aren't enough see I just wanna hold you close

A bittersweet melody would make you see what you mean to me
A bittersweet melody would make you believe
A bittersweet melody would make you believe

There's a lock on your door
A lock on your heart
The more you keep me out
The more I fall apart
See I'm just trying to reach you
It's getting on my nerves
The more I think about you
The more it hurts

I'm trying I'm trying I'm trying to let you go
But words aren't enough see I just wanna hold you close

A bittersweet melody would make you see what you mean to me
A bittersweet melody would make you believe
A bittersweet melody would make you believe

A bittersweet melody would make you see what you mean to me
A bittersweet melody would make you believe
A bittersweet melody would make you believe
