

Never Gone

Said The Sky

High on liquid light
Changing worlds, starting anew
Moving with the sky
But baby I'll never leave you

I'm never really gone
Never really gone

Dancing in the dew drops
Chasing the winds
We're crashing in waves of gold
I've just begun
I've just begun

Breaking in the wings of butterfly effect
A million lives unfold
But you and I are not done
'Cause you and I are one

And I'm never really
I'm never really gone

High on liquid light
Changing worlds, starting anew
Moving with the sky
But baby I'll never leave you

I'm never really gone
Never really gone
Never really gone
Never really gone

I'm never really gone
I'm never really gone

High in liquid light
Changing worlds, starting anew
