

Welcome Home

Said The Sky

Oh

Welcome home, I'm glad you made it
Half my soul was on vacation
Held my lungs. I'm finally breathing
I feel younger. I can see it

Hey little child, I'm happy you're home, it's been a while
I'll tell you I know we grew up, I know we've been let down

But hey little child, I know you've been close the whole time
I know in my bones you've been trying to show me you're still h
ere

So welcome home
So welcome home
Welcome home
Welcome home
Welcome home
