Said the Whale

If I'm serious and I'm all about it
I could see it through, try to live without it
I seriously doubt it

If I'm fucking up everyone will notice
If I laugh it off like it hardly matters
Then I'll definitely do it

But if it doesn't entertain us
If it doesn't entertain us

If I make it up, lie to you about it
You could see right through
Fortunately for me you will always be there when I hit the ground

But if it doesn't entertain us
If it doesn't entertain us
