

## Nickelodeon Nights

Sailor

Some people talk about losing,  
And how things that they love never last  
Bittersweet memories haunting  
As the days of their youth seem to pass

So play, nickelodeon, play  
Bring back the bright golden days  
Play nickelodeon  
With an accordion  
Play me the songs that I love  
Songs that I love

(Play me a song)

The towns and the girls and the harbours  
The jokes and the stories we told  
A beautiful song like an old friend  
Can live in your heart and your soul

So play, nickelodeon, play  
Bring back the bright golden days  
Play nickelodeon  
With an accordion  
Play me the songs that I love  
Songs that I love

Play me a song

So farewell to you, my old friend  
The dreams that we dream never end  
Play nickelodeon  
Now I'm alone again  
Counting the years that have drawn us apart  
But I know in our hearts we will share...
