

# Devastate

Saint Asonia

Down in the dark  
You live on the bottom  
You fooled 'em all  
Looks like you got 'em  
When all is lost  
Who will you follow  
When all the same shit  
Will be here tomorrow

You fall for anything  
All for nothing  
You never cared for anyone at all

Well I hate  
Every word that you say  
Even when you breathe  
I can't stand to see you medicate  
Fake  
It's all one in the same  
Nothing to believe  
All you ever do is devastate

Nothing to use  
End of the bottle  
We fooled 'em all  
Like a role model  
No matter the cost  
Beg, steal or borrow  
'Cause all the same shit  
Will be here tomorrow

You fall for anything  
All for nothing  
You never cared for anyone at all

Well I hate  
Every word that you say  
Even when you breathe  
I can't stand to see you medicate  
Fake  
It's all one in the same  
Nothing to believe  
All you ever do is devastate

All your lies  
Under your disguise  
When the weight comes down  
You'll be in the ground  
All your lies  
Under your disguise  
When the weight comes down  
You'll be underground  
Underground  
Underground  
Underground

You fall for anything

All for nothing  
You never cared for anyone at all

Well I hate  
Everything that you say  
Even when you breathe  
All you ever do is devastate

Well I hate  
Every word that you say  
Even when you breathe  
I can't stand to see you medicate  
Fake  
It's all one in the same  
Nothing to believe  
All you ever do is devastate
