

# Dancing Heart

Saint Etienne

My dancing heart doesn't start until midnight  
My dancing heart doesn't beat until time

This life has had its high points  
And sure, there's been some lows

And moments like these  
We share them with people  
People like you and me  
Moments like these  
They don't last forever  
Turn them to memories

My dancing heart doesn't start until midnight  
My dancing heart doesn't beat until time  
Now it's time to live and move to the rhythm of heartbreak  
Now it's time and dance, dance, dance 'til the morning comes

I've tried to kick what happened  
I've tried to let it go

And moments like these  
We share them with people  
People like you and me  
Moments like these  
They don't last forever  
Turn them to memories

My dancing heart doesn't start until midnight  
My dancing heart doesn't beat until time  
Now it's time to live and move to the rhythm of heartbreak  
Now it's time and dance, dance, dance 'til the morning comes

My dancing heart doesn't start until midnight  
My dancing heart doesn't beat until time

Now it's time to live and move to the rhythm of heartbreak  
Now it's time and dance, dance, dance 'til the morning comes  
Now it's time, my dancing heart doesn't start until midnight  
Now it's time and dance, dance, dance 'til the morning comes

Dance, dance, dance 'til the morning comes
