Saint Etienne

Fallen leaves and a golden glow
Lifts my heart and before you know
Act once

We might escape
Just to see your face
Now I long so for your embrace
Never mind, I left behind
Something old, a story told
A lie

Wanna dive in the river
Wanna swim in the water
Hold my breath with the feeling
Wanna swim in the water
Throw a kiss, can't you see me?
Call your name, don't you hear me?
Summer sun lasts forever
Only when we're together

Dive
Dive
Dive

I escape just to see your face
Now I long so for your embrace
Never mind, I left behind
Something old, the story told
A lie

Wanna dive in the river
Wanna swim in the water
Wanna breathe with the feeling
Wanna swim in the water
Blow a kiss, can't you see me?
Call your name, don't you hear me?
Summer sun lasts forever
Only when we're together

Wanna dive in the river
Wanna swim in the water
Wanna breathe with the feeling
Wanna swim in the water
Blow a kiss, can't you see me?
Call your name, don't you hear me?
Summer sun lasts forever
Only when we're together

Wanna dive in the river
Wanna swim in the water
Wanna breathe with the feeling
Wanna swim in the water
Blow a kiss, can't you see me
Call your name, don't you hear me
Summer sun lasts forever
Only when we're together
