

# Lullaby

Saint Etienne

Lullaby, close your eyes  
Say goodnight, close your eyes  
Till the morning light  
Lullaby, close your eyes  
Keep me warm, baby  
Through the night

Sleep walk all day  
Daydream all night  
I just can't sleep until it's light  
Studying words I didn't say  
But you're leaving anyway

I go out all weekend with my friends  
Running all the time, I can't stand still  
You can try and catch me if you like  
Won't you climb aboard my satellite?

I'll never let you down  
I'll never try to run away  
And if you leave me now  
To find another lullaby...

Sleep walk all day  
Daydream all night  
I just can't sleep until it's light  
Studying words I didn't say  
But you're leaving anyway

I go out all weekend with my friends  
Running all the time, I can't stand still  
You can try and catch me if you like  
Won't you climb aboard my satellite?

I'm a star tonight  
Find a song to make me sleep  
Travel far and wide  
To find another lullaby...

I'm a star tonight  
Find a song to make me sleep  
Travel far and wide  
To find another lullaby...

I go out all weekend with my friends  
Running all the time, I can't stand still  
You can try and catch me if you like  
Won't you climb aboard my satellite?

I go out all weekend with my friends  
Running all the time, I can't stand still  
You can try and catch me if you like  
Won't you climb aboard my satellite?
