

Time And Tide

Saint Etienne

The keys in the hall
Her picture was pulled from the wall
A hole in the door
The sun on the floor
Said she'd never seen him before

Time and tide
It's another 'take it back' (carry on over)
Time and tide
It's another 'take it back' (girl by my side)

The song played for days
Been singing in so many ways
A scent in the air
One strand of her hair
Still no one could blame her at all

Time and tide
It's another 'take it back' (time to think over)
Time and tide
It's another 'take it back' (girl by my side)

You can never tell what
What you're doing
You can never tell what
What you're doing
