

lost a friend

Saint Harison

Tell me how I get you back
Tell me baby, I was the best thing that you had
I was convinced you had all good intentions
Wonder if I could change your decision

It's hard to keep you in the past
All I wanted was something that would last
I was convinced you were all I was missing
Now I wonder who on earth I was kidding, yeah

When we were together, question
Tell me, was it all lies?
Forever turned to never
I hung on, I'm bad at goodbyes
And you know that
It's the beginning of the end 'cause I
I lost a friend
I lost a friend
Honestly

I can do without a kiss
I can do without you touching me
Hate we complicated things
I'd undo, you say you're loving me, yeah
Oh, 'cause I can't go without you being someone to me

When we were together, question
Tell me, was it all lies?
Forever turned to never
I hung on, I'm bad at goodbyes
And you know that
It's the beginning of the end 'cause I
I lost a friend

No, no, no
I lost a friend
No, no, no, no, no

I lost a friend
