

Used to be the high for me and now you're just a downer  
You lost your powers  
I lost the hours, yeah  
Used to love the taste of you, but now you're kinda sour  
Lost the craving  
Appetite is changing

Ain't in my nature  
I gave you more than deserved  
I gave you all my love  
Is it just not enough?

Damn, I give too many chances  
Logic is stranded  
Wish I could just give you up  
Damn, give too many favors  
Toxic behaviors  
Should leave your ass in the mud  
Damn, I give too many

Fucks, fucks, oh  
Too many  
Fucks, fucks, oh

Was unaware or was happy?  
My therapist don't understand me  
Peculiar how I love the drama  
Or stick around for just the karma  
Used to be the high for me and now you're just a downer  
You lost your powers  
I lost my hours, yeah

Ain't in my nature  
I gave you more than deserved  
Gave you all my love  
Is it just not enough?

Damn, I give too many chances  
Logic is stranded  
Wish I could just give you up  
Damn, I give too many favors  
Toxic behaviors  
Should leave your ass in the mud  
Damn, give too many

Fucks, fucks, oh  
Too many  
Fucks, fucks, oh  
Too many, eh  
Too, too, too, too many  
Way, way, way, way too  
Way, way, way, way
