

# Borders

SAINt JHN

Baby, let's close up  
Baby, come close to me, don't create borders  
Take me in comfortably, don't be difficult  
Baby girl, who hurt you? Don't be miserable  
Baby, let me love you, baby let's close up  
{Baby, come close to me, don't create borders  
Take me in comfortably, don't be difficult  
Baby girl, who hurt you? Don't be miserable  
Baby, let me love you}

I'm tryna find my God these days, I pray to God we all behave  
I just been on my Holly ways, I just been on a gnarly wave  
I got a place in Hollywood, further than where we thought we would  
Told Lee he'd be a millionaire, I'm 'bout to make my promise good  
I'm gettin' closer to the dream, girl, I'm tryin'  
Land on the feet, I can fly, ayy  
Top off, hands in the sky, ayy  
Champagne pain for the diet  
Damn, and it ain't even Friday  
Bet he got a Porsche on the highway  
Top off, hands in the sky, ayy  
Pray don't nobody violate

{Baby, come close to me, don't create borders  
Take me in comfortably, don't be difficult  
Baby girl, who hurt you?} Don't be miserable  
Baby, let me love you, baby, let's close up  
Baby, come close to me, don't create borders  
Take me in comfortably, don't be difficult  
Baby girl, who hurt you? If this isn't love  
You should let me love you

I just wanted you sometimes, no lie  
When the lies is good, you don't wanna hear the truth sometimes, some times  
I don't wanna just seem, I don't wanna be shootin' blind, true crime  
Even if it ain't right, right now, the illusion's fine, oh my  
You hear that I'm on the way, you know to just keep the lights on  
I know you want me to stay, 'cause I feel the same when the night's g one  
And on the chance you don't, you should know I try  
Keep your borders closed, but keep an open mind, well then...

{Baby, come close to me, don't create borders  
Take me in comfortably, don't be difficult  
Baby, girl who hurt you?} Don't be miserable  
Baby, let me love you, baby, dance closer  
Baby, come close to me, don't create borders  
Say what you want from me, don't be difficult  
Baby girl, who hurt you? If this isn't love  
You should let me love you
