

Circles

SAINt JHN

I been running in circles
I been running in circles for you
I been running in circles
I been running in circles for you
I been running in circles
I been running in circles for you
I been running in circles
I been running in circles for you

When a square meets a circle
I been trying to make it all fit for you
I ain't really trying to hurt you
But the walls gotta break, bend the rules

I been running in circles
I been really tryna hurt myself for you
What am I gonna do?
Lie next to you

I feel invincible
I crash
Get up and run back to you
I feel
I been running in circles

And I'm running in circles for you
Ah, circles for you
I been running in circles
I been running in circles for you
For you
For you
For you
Circles for you

This broken DVD
Life's been a loop
Me and you
The worst part of this scene
I'm broken too
Impossible

'Cause I'm supposed to be a superhero, baby
You aren't supposed to break me
Lie next to you

I feel invincible
I crash
Get up and run back to you
I feel
I been running in circles

And I'm running in circles for you
Ah, circles for you
I been running in circles
I been running in circles for you
For you
For you

For you
Circles for you
