

# The Best Part Of Life

SAINt JHN

All nights, all nights, at night  
You only love me when the world watching  
All nights, all night at night  
All night (heh)

Who's scared?  
Who really afraid of where this goes?  
Even though I know how it ends up, ain't nobody scared  
I put my hand up in the air  
You put your heart up in the air  
You gave it to me, made it very clear  
This is the ride of your life  
I'm excited, I'm happy that it's private, I'm ready, babe  
Don't gotta tell me how you like it  
I'm psychic, I know just how you like it in every way

Hold me, nobody else survived, nobody made it out  
I gotta wave the flag on the steps by my lonely  
I don't know the miles, girl, I don't know the routes  
The only thing I know is this love

The best part of life, I'm with you  
For forever-ever even if it end  
And the best part of life, I'm with you  
For forever-ever, then we re-begin  
And the best part of life, I'm with you  
For forever-ever-ever till the end  
And the best part of life in a movie  
With you for forever-ever till the end

Look, truthfully speaking, my dog, I wouldn't tell you no lies  
I wasn't here every night, I did my share of the crimes  
I was a terror sometimes, ain't see the mirror sometimes  
Now I'm accountable, dog, comfortable closing my eyes  
I can't be 'fraid of the dark, can't let you play with my heart  
I was just playing my part, I know you staying apart  
We been in love for a while, we been in love, no denial  
We done ran a forest mile, baby, in the middle of the-

Hold me, nobody else survived, nobody made it out  
I gotta wave the flag on the steps by my lonely  
I don't know the miles, girl, I don't know the routes  
The only thing I know is this love

The best part of life, I'm with you  
For forever-ever even if it end  
And the best part of life, I'm with you  
For forever-ever, then we re-begin  
And the best part of life, I'm with you  
For forever-ever-ever till the end  
And the best part of life in a movie  
With you for forever-ever till the end  
And the best part of life, I'm with you  
For forever-ever-ever till the end  
And the best part of life in a movie  
With you for forever-ever till the end  
No, oh

All nights, all nights, at night  
You only love me when the world watching  
All nights, all night at night  
All night
