

# Rockstar Car

Saint Lu

It's five I am taking a bath  
Blowin' a cardiograph  
Got a date gotta move

Went shopping all over the town  
Bought a tune: Bobby Brown  
Just to get in your groove

I tried every way I could find  
Grand Manier - love is blind  
Every drink just to please

You're joking I'm fooling around  
Till you're drooling you hound  
Then you gave me the keys  
And said:

„Bird, we're here, we're wasting all our time...  
Every word you heard, was just

Meant to drop your heart  
In my shopping cart  
I just wanna rock you in my Boxster  
Every word I said to you  
Was to get you to  
Sprawl and spread, girl, in my Rockstar car“  
Play my guitar

Thought you and me is not a game  
Meant to score, it's a shame  
I'm just another goal

A start like in a perfect dream  
An awakening to scream  
Thought me under control  
And said:

„Bird, we're here, we're wasting all of our time...  
Every word you heard, was just

Meant to drop your heart  
In my shopping cart  
I just wanna rock you in my Boxster  
Every word I said to you  
Was to get you to  
Sprawl and spread, girl, I'm a Rockstar“

I'm sorry Hollywood man  
I used your key as a pen  
I thought you're one in a million  
And the real one  
But you're another fucker  
Sippy like peanut butter  
At least that „no“ on your hood  
Redressed the fast food

Come again? Where did you buy your car? Walmart?

You'll never drive me good  
Come again? What kind of car you got, upstart?  
Low budget rocking star dude
