

Waterfall

Saint Lu

I told you when we started
I would leave you broken hearted
But you didn't listen to me, did you? no
Made it loud and clear
But you didn't wanna hear
And now you swear you never gonna let me go?
The best laid plans
They never have a change oh no
The best laid plans
They slip right through

What you're gonna do about it?
Now that I'm falling like a waterfall
Can't you see?
What you're gonna do about it?
I guess you got me going after all
Falling like the waterf over me
Falling like a waterfall
Over me
Falling like a waterfall

I told you all those lies
Looking straight into your eyes
Said those words that
Always worked for me before
But you shattered every wall
That I've built. Said I won't but now I will
Only made me want you more
The best laid plans
They never have a change
The best laid plans
They slip right through

What you're gonna do about it?
Now that I'm falling like a waterfall
Can't you see?
What you're gonna do about it?
I guess you got me going after all
Falling like the water over me

Thought I'd be better off with nobody
To complicate my life
Thought I'd be better off but I'm sorry
You got me

Falling like a waterfall
Falling like a waterfall

Now what you're gonna do about it?
Now that I'm falling like a waterfall
Baby, can't you see?
What you're gonna do about it?
I guess you got me going after all
Falling like the water over me

Falling like a waterfall
Over me

Falling like a waterfall
Over me
Falling like a waterfall
Over me
Falling like a waterfall
