

What is that love?

Saint Lu

What is that love?
That's changing my direction
What is that love?
That's tearing down my soul
What is that love?
That's stealing my reflection
What is that love?

You spilt your heart on my floor, all your emotions
Like a flood, I'm flowing away
You built a castle with all of your devotion
Like a drug, I'm chosen to reign

What is that love?
When a kiss feels anesthetic
What is that love?
When caress feels like a scar
What is that love?
You're too sweet, I'm diabetic
What is that, love? What is that, love?

You spilt your heart on my floor, all your emotions
Going down, Canyouhelpme.com
You built a castle with all of your devotion
I am crowned but under your thumb

All your love on my floor
and in every drawer
In my closet, in my bed
in the world wide web
On my chairs, down the stairs
I just wipe and wipe its everywhere
But it's not in the air

What is that love?
That covers me with roses
What is that love?
Can't see myself no more
What is that love?
It's like an overdose it's
Way too much love

You spilt your heart on my floor, all your emotions
Like a flood, I'm flowing away
You built a castle with all of your devotion
Like a drug, I'm chosen to reign

All your love on my floor
and in every drawer
In my closet, in my bed
in the world wide web
On my chairs, down the stairs
I just wipe and wipe its everywhere
But it's not in the air

All your love on my floor
and in every drawer

In my closet, in my bed
in the world wide web
On my chairs, down the stairs
I just wipe and wipe its everywhere
But it's not in the air

You spilt your heart on my floor, all your emotions
Going down, Canyouhelpme.com
You built a castle with all of your devotion
I am crowned but under your thumb

All your love on my floor
and in every drawer
In my closet, in my bed
in the world wide web
On my chairs, down the stairs
I just wipe and wipe its everywhere
But it's not in the air
