

Steady Hand

Saint Motel

Wherever you go I'll be right beside you
In the midnight hour, under the neon lights
Yeah, yeah
You're never alone, just find a full moon
I'll be the one for your life gets cold
Steady hand for you to hold

When your whole world's on fire, I'll be your rain
And when you can't find cover, I'll be your shade
Through every trip, through every stumble and fall
When you get stuck, I'll always be your wonderful guy

Wherever you go I'll be right beside you
In the midnight hour, under the neon lights
Yeah, yeah
You're never alone, just find a full moon
I'll be the one when your life gets cold
I'm a steady hand for you to hold

To hold
To hold
To hold

And when your heart gets broken, I'll be your glue
And in your darkest moments, I'll shine for you
This love I give, depend on it, it won't change
From your first steps 'til I'm set in my own ways

Wherever you go I'll be right beside you
In the midnight hour, under the neon lights
Yeah, yeah
You're never alone, just find a full moon
I'll be the one when your life gets cold
I'm a steady hand for you to hold

Always and forever
I hope you remember

Wherever you go I'll be right beside you
In the midnight hour, under the neon lights
Yeah, yeah
You're never alone, just find a full moon
I'll be the one when your life gets cold
I'm a steady hand for you to hold

To hold
To hold
To hold
To hold
To hold
To hold
Yeah
