

# Bones

SAINT PHNX

I just can't hide they're calling my name  
Deadmen are chasing now I can't escape  
Night after night day after day  
I try and running away and hide  
From my fear and the shame  
There's just one thing I want them to know  
I've got a fire that burns in my bones  
Something inside I can't control  
Caught in the flames and the way that they glow

Never gonna stop, going til I drop  
Counting down the clock  
Ticking like a bomb  
That's just about to explode

Screaming out through my soul  
To ashes and smoke  
There's a fire that burns down deep in my bones  
Watch it blow, it glitters like gold  
There's a fire that burns down deep in my bones  
Bones bones bones bones  
Bones bones bones bones  
Breathing out of control  
To ashes and smoke  
There's a fire that burns down deep in my bones

I can't decide which way I will go  
Caught in the flames and the way that they glow  
Night after night day after day  
Falling every single time for these games that you play

Never gonna stop, going til I drop  
Counting down the clock  
Ticking like a bomb  
That's just about to explode

Screaming out through my soul  
To ashes and smoke  
There's a fire that burns down deep in my bones  
Watch it blow, it glitters like gold  
There's a fire that burns down deep in my bones  
Bones bones bones bones  
Bones bones bones bones  
Breathing out of control  
To ashes and smoke  
There's a fire that burns down deep in my bones

(In my bones, in my bones, in my bones, in my...)

Out through my soul  
To ashes and smoke  
There's a fire that burns down deep in my bones  
Watch it blow, it glitters like gold  
There's a fire that burns, that burns, that burns  
  
Bones bones bones bones  
Bones bones bones bones

Bones bones bones bones  
Bones bones bones bones  
There's a fire that burns down deep in my bones
