SAINT PHNX

(Glorious...)

Welcome to the greatest thing
Your eyes will ever see
It'll make your ears bleed
Little bit of everything
We got what you need
Fairytale or fantasy

Falling through a trapdoor
Spinning through the air into the
Belly of the beast
Ticket to the front row
Better take your seat
Hypnotizing melody

Welcome to the greatest show
Strange and weird yet wonderful
All the lights shine down on us
Makes us feel so glorious

Glorious
Glorious
Glorious

Thunderbolts of lightning
Electricity, I'll make you believe
Little bit of everything
We got what you need
Nightmare to reality

Walking on a tightrope
Floating in the air
Hell fire underneath
Ticket to the front row
Better take your seat
Hypnotizing melody

Welcome to the greatest show
Strange and weird yet wonderful
All the lights shine down on us
Makes us feel so glorious

Glorious
Glorious
Glorious

I've been in the graveyard
Digging in the dirt
Dancing in the moonlight
Stomping in the mud
I've been in the graveyard
Digging in the dirt
Burying the deadmen
Stomping in the mud

Welcome to the show!...

Welcome to the greatest show...
