Reload

SAINT PHNX

Say what you need and I'm ready to go
I'll tear down the truce
My head's spinning out of control
So reload, reload, reload

Shot in the night and I'm [?] to the call
I'm battered and bruised
My head's spinning out of control
So reload, reload, reload

Cause I can't sleep any time you call
Into deep every time we go
I only wanna open your eyes

You make me want to touch the sky, oh
You make me want to touch the sky, oh
So reload, reload, reload

Stop playing games cause they're all just for show
Don't be confused, I'm ready to start a war
So reload, reload, reload

Cause I can't sleep any time you call
Into deep every time we go
I only wanna open your eyes

You make me want to touch the sky, oh
You make me want to touch the sky, oh
So reload, reload, reload

I feel it when I see ya
Only wanna open your eyes
I feel it when I see ya
Only wanna open your eyes

You make me want to touch the sky, oh
You make me want to touch the sky, oh
So reload, reload, reload
