

# Waves

SAINT PHNX

When we fall and it gets too tough  
From the start and stop  
We wont give up  
I know it's hard  
And when the rain comes down  
Then the sun comes out  
It was worth it all

Sometimes you got to lose a little to know just what you got

When you're burning down like a house on fire  
Try your best but the flames get higher  
Don't stop, you know you gotta ride the waves  
When you feel like you've been walking on water  
Next minute then you're sinking to the bottom  
Don't stop, you know you gotta ride the waves  
We never gonna stop the waves  
(Oi oi oi io ohh)  
We never gonna stop the waves  
(Oi oi oi io ohh)

I'll be there  
When you need someone  
You were there for me  
When I came undone  
Don't be scared  
We've been here before  
We've been down and out  
But we're still here now

Sometimes you got to lose a little to know just what you got

When you're burning down like a house on fire  
Try your best but the flames get higher  
Don't stop, you know you gotta ride the waves  
When you feel like you've been walking on water  
Next minute then you're sinking to the bottom  
Don't stop, you know you gotta ride the waves  
We never gonna stop the waves  
(Oi oi oi io ohh)  
We never gonna stop the waves  
(Oi oi oi io ohh)

I know it's hard  
But when the rain comes down  
And the sun comes out  
It was worth it all

When you're burning down like a house on fire  
Try your best but the flames get higher  
Don't stop, you know you gotta ride the waves  
When you feel like you've been walking on water  
Next minute then you're sinking to the bottom  
Don't stop, you know you gotta ride the waves  
We never gonna stop the waves  
(Oi oi oi io ohh)  
We never gonna stop the waves

(Oi oi oi io ohh)  
We never gonna stop the waves
