

# Killer

Saint Raymond

It was just after midnight  
When she looked me in the eye  
Said do you fancy a gun fight  
Come and meet me outside  
She walks like an angel  
She's the Devil in white  
I can only follow  
When I should run for my life

You in my heart, in my heart  
Always knew it was her in the dark  
Cos it's true I fall hard, I fall hard  
And I don't wanna let her know  
I know how this story goes

It's written on the wall  
I've seen it all before  
The hunger when she calls  
My heart won't understand  
Why there's bloodstains on her hands  
She's a stone cold killer  
She's a stone cold killer  
She's a stone cold killer

See I begged and I borrowed  
Just to hide from the light  
I'm lost in this battle  
Am I out of my mind?  
It was all I could stay for  
Just to keep me alive  
I'm drowning my sorrows  
Cos she's soon out of sight

Ooh in my heart, in my heart  
Always knew it was her in the dark  
Cos it's true I fall hard, I fall hard  
And I don't wanna let her know  
I know how this story goes

It's written on the wall  
I've seen it all before  
The hunger when she calls  
My heart won't understand  
Why there's bloodstains on her hands  
She's a stone cold killer  
She's a stone cold killer  
She's a stone cold killer

I've died a thousand times over  
Sweet highs, so melancholy sober  
I've died a thousand times over  
I'll be doing it all again  
I'll be doing it all again

It's written on the wall  
I've seen it all before  
The hunger when she calls

My heart won't understand  
Why there's bloodstains on her hands  
She's a stone cold killer  
She's a stone cold killer  
She's a stone cold killer
