

## Nothing Lasts Forever

Saint Raymond

I never a found a reason  
To let somebody in  
But you have my heart believing  
That I could open up

I don't wanna waste our time  
It's not like, we're getting younger  
And I'm tired of nights alone

Nothing lasts forever, I know  
Will the world keep spinning when my heart stops beating?  
Who knows? oh, I don't  
Every story I've told about you and me growing old  
If you reached out, I'd be home by now

When I'm lost out in the middle  
You take me to your side  
When life feels like a riddle  
You open up my eyes

I don't wanna waste our time  
But The nights are getting longer  
And I need you here tonight

Nothing lasts forever, I know  
Will the world keep spinning when my heart stops beating?  
Who knows? oh, I don't  
Every story I've told about you and me growing old  
If you reached out, I'd be home by now

I'd be home by now  
I'd be home by now  
If you're tired and out of love  
I'd be home by now  
If you say you're not enough

Nothing lasts forever, I know  
Will the world keep spinning when my heart stops beating?  
Who knows?
