

# Only You

Saint Raymond

I was hoping you were watching  
Cos I was out there in the darkness  
But I got lost trying to find the only light  
And only you can bring me slowly back to life

But I don't wanna wait forever  
Cos forever's not now  
I know that you can't change the weather  
But you do know how  
How to hold me and make me whole

Yeah it's you, only you  
Cos it's you, only you  
Can take me there, can take my hand  
And try and make me understand  
Cos it's you, only you

I was waiting by the window  
Throwing stones at my reflection  
But you find a way to open up the door  
Through the shattered glass you show me so much more

But I don't wanna wait forever  
Cos forever's not now  
I know that you can't change the weather  
But you do know how  
How to hold me and make me whole

Yeah it's you, only you  
Cos it's you, only you  
Can take me there, can take my hand  
And try and make me understand  
Cos it's you, only you

Cos it's you, only you  
Cos it's you, only you
