

# We Are Fire

Saint Raymond

Have you lost your mind  
Cause I lost mine too  
Now I'm not seeing things the way I should  
Maybe I'm blind  
To the things I do  
Oh am I crazy or misunderstood  
Oh it's a problem to be solved  
My fault oh so I'm told  
Tell me something I don't know  
Is it just smoke and mirrors oh  
If you want to you can blow it all away and let it go

Every time it hurts  
Darling are we cursed  
Why do we make it hard  
We've done it from start  
Every time you feel  
Like time's not gonna heal ya  
Why do we make it hard

We are the fire that lights up the dark  
Forever the flame to ignite my heart  
We are the fire that burns through the night  
Forever the fuel to keep us alight  
We are fire in the darkness

Will you lean on me  
Like I lean on you  
Oh I can see it from your point of view  
Yeah I know we fight  
But we make up soon  
Oh she's the devil but she tells it true  
Oh it's a mess I can't resolve  
You know I'm not a riddle that you're ever gonna solve  
It's just illusions in my head  
If you want you can leave them all behind, leave them for dead

Every time it hurts  
Darling are we cursed  
Why do we make it hard  
We've done it from start  
Every time you feel  
Like time's not gonna heal ya  
Why do we make it hard

We are the fire that lights up the dark  
Forever the flame to ignite my heart  
We are the fire that burns through the night  
Forever the fuel to keep us alight  
We are fire in the darkness

You're the spark in me  
I'm the spark in you  
Doing all the things  
That young lovers do  
You're the spark in me  
I'm the spark in you

Doing all the things  
That young lovers do

We are the fire that lights up the dark  
Forever the flame to ignite my heart  
We are the fire that burns through the night  
Forever the fuel to keep us alight  
We are fire in the darkness
