

Younger

Saint Raymond

I left myself for dead
Was it something that I said?
Is it in my design to be losing the fight?
Oh, it doesn't matter anyway
From the moment it got real
You had no more time to kill
Just a small town heart, but you play the part
But I like that anyway

I can't look in your eyes
It's hard enough for me to say hello
You give me butterflies
And I don't ever wanna let em go

I just wanna get, get to know you
I just wanna get, get to know you
Talk about it when, when we're older
I just wanna get, get to know you
I just wanna get, get to know you
Talk about it when, when we're older
'Cause we're not getting any younger

This isn't just a phase
Between a rock and hard place
Been down this road, but there's nowhere to go
So I'm asking, "Which way?"
Yeah I've always been this shy
When I see you I can't hide
All the little things, bursting at the seams
Hope you like it anyway

I can't look in your eyes
It's hard enough for me to look away
You give me butterflies
And I don't wanna let them get away

I just wanna get, get to know you
I just wanna get, get to know you
Talk about it when, when we're older
'Cause we're not getting any younger

I need something I can believe in
Is it you, is it you, that I'm needing?
I need something I can believe in
Time is slipping
I need something I can believe in
Is it you, is it you, that I'm needing?
I need something I can believe in
Are you that one thing?

I just wanna get, get to know you
I just wanna get, get to know you
Talk about it when, when we're older
I just wanna get, get to know you
I just wanna get, get to know you
Talk about it when, when we're older
'Cause we're not getting any younger
