

Chaos

Saint Saviour

From chaos comes control
A wall around my soul
From chaos comes control
A mathematic code

It multiplies in me
A formula I see
And Michael is the mould
From chaos comes control

Cos no one owns my soul
No no one owns my soul
I'm under my control
I'm under my control
No no one owns my soul
No no one owns my soul
I'm under my control
An order to it all

The measure of a man
In angle line and span
Sacred geometry
A perfect fit for me

And I can make my own
From my own flesh and bone
A miracle in math
A scientific fact
