

Here In Me

Saint Saviour

Only you'll ever know
How hard I'm trying' o o o o o o oh
But I can't bear standing still
Cos my heart starts flying o o o oh

I'm a notion
You exist
I'm the ocean
You're the mist
You're unstoppable
I'm unloveable
I'm the anger
You're the fist

I say I'm different now
I'm a liar
I'm the smoke of it
You're the fire
You're the best of me
I'm the ghost of you
I'm invisible
You're forever true

Here in me
Here in me
And I'm by your side

You're clear in me
You're clear in me
You more live than die

And that's why I don't feel on my own

Only you'll ever know
How hard I'm crying o o o o o o oh
And if you don't show at once
I'll star untying oh

I am a motion
You're a will
I'm devotion
You are still
You're a permanent
I'm a chance event
You're the flourishing
I'm the ill

I say I'm different now
I'm a liar
You're invention
I'm desire
You're the best of me
I'm the ghost of you
I'm invisible
You're forever new
