

## Little Bee

Saint Saviour

Little bee, sun in my sky  
Funny face, tummy ache, bold as love  
Little bee, I don't wanna see you cry  
Everything, everything is new for you

Little bee, shows me how to be kind  
See me from the mountain of bees  
Say that I'm doing her right

It's time to celebrate  
Golly, turn the page now  
Make an expression, take me there with you  
Laze me ageless, now you're gonna shake me loose

She's stolen all my change  
Golly, turn the page now
