

## Some Things Change

Saint Saviour

Some things change and some things don't  
Without reasonable force  
You can't expect nature to change its course  
You can't depend on rainy days to change the order of things

Some things change and some things don't  
Without losing a few  
You can't just hope someone will pull you through  
You can't go jumping off the wall to prove that you can grow wings

Ooh

Please be brave while they're making waves  
It takes more than that to move me, it takes more  
Don't be sold, you're worth more than gold  
It takes more than that to move me, it takes more.

Some things change and some things don't  
There's a lesson unfurled  
It's not the end of the world  
Just take a look at yourself girl  
Take a look at yourself girl.
