

Taurus

Saint Saviour

Taurus led a charge
But lost heart for the first time
Broken in the dust
I found him
That's my love

Brother, in my pocket
Jet lag like I'm drowning
Saviour
Keeps me treading water
That's my love

I Don't mind
If I lose you for a little while
Take your time
Every minute that goes by

Satellite
In my orbit
Right on time
Magnetised
Pull me to you
Spinning

Daughter
Changed my rhythm
Southpaw
Even stronger
Knocked out
Skeletons all loose now
Spinning

Satellite
Take a minute of my time
Magnetised
Wrap around me
I don't mind
Satellite
In my orbit
Spinning
